KINGSTON ARTISTS OPEN STUDIOS

Kingston Artists Open Studios (KAOS) is an unfunded, voluntary-run community of artists and makers set up to promote the visual arts in the borough of Kingston.

Established in 2010 our members are predominantly professional and semi-professional artists, ceramicists, printmakers, photographers, sculptors and other creative people living or working in or around Kingston.

Our biggest event is the annual Open Studios, but we also hold regular group exhibitions further afield both nationally and internationally.

To find out more about KAOS and how to join our community please visit our website: kingstonartistsopenstudios.co.uk

CABIN Generous Art

Alison Churchill, Jane Horton, Laura Jackson,
Dawn Langley, Valerie Timmis and SuKhin Tye

One mark, many interactions, a multitude of images...

We are a group of six artists, based in the UK and the US, who are involved in making collaborative visual art remotely.

Over the last three years we have created together hundreds of composite, yet highly individual images. Our process challenges us to both let go of our own marks and respond honestly to those initiated by someone else. In doing so we see our marks taken in a direction that we could not have imagined, illustrating in the process an expansion of creative potential.

Core to our practice is dialogue via Zoom in which we share and explore the nuances of our experience, developing amongst us a deep trust and connection.

We invite you to join us!

FUSEBOX is a multi-arts space for young people where ideas and imaginations will be sparked and dreams realised.

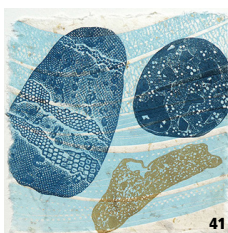

Situated in a heritage site under John Lewis in Kingston, FUSEBOX is a place for young people, emerging artists, key academic partners, and community organisations to come together. With innovation, diversity and inclusion at its heart, it is a multi-functional space for performance, exhibitions, creativity, socialising, co-creation and more. It will also be a home to FUSE International and Creative Youth's Creative Talent artists. The venue will evolve in close collaboration with young people and the local arts community.

Current exhibitions

A **RANJAN's** work explores subjects of the human-machine relationship while elaborating on the techniques of textile-making and the role of women in sculpting the future of the digital and information age. By highlighting the intersections between textile and digital information, the artist makes visible the complexity of modern technology and internet that is often obscured by the high-speed electronic transmission of data in the form of bits.

B Former Creative Talent Programme artist **CHIYANA ANKHRAH's** thought-provoking exhibition returns to Creative Youth following its debut at FUSE International 2023. *LABELS: Black Mental Health and Me* is a photographic documentary focusing on anecdotal experiences of four black British men and women who are currently dealing with, or have dealt with, mental illness. Through their stories Ankhrah explores the impact of situational and intergenerational trauma as well as racial bias within mental health services and how these elements can negatively impact black people's mental health.

Dorich House Museum is the former studio home of the sculptor Dora Gordine and her husband the Hon. Richard Hare. The building was completed in 1936, to Gordine's design, and is an exceptional example of a modern studio house.

ARIADNE'S THREAD

Dorich House Museum will be hosting *Ariadne's Thread*, a Polish-Ukrainian community group founded by a local curator, Magdalena Glowacka, as a response to the invasion of Ukraine.

Their work focuses on the strength and resilience of women, underlining the role and significance of the female figure in the preservation of the cultural identity. With a creative vision and the goal to keep native customs and memories of home alive, the members engage in traditional crafts and participatory activities.

"*Blue Cornflowers...*" is a large-scale cross stitch embroidery reproduction of a painting by the celebrated Ukrainian folk artist *Maria Prymachenko*. This is an ongoing participatory art installation which anyone is invited to join. The aim is to provide a therapeutic outlet and social interaction to those displaced by the conflict, but also to raise awareness and funds for the humanitarian aid in support of families with special needs in Ukraine.
